

Animals in School Policy

Policy approved and adopted: January 2019

Review date: January 2022

We believe that opportunities to work with animals provide unique opportunities for learning. We recognise our responsibility to provide a safe environment and positive learning experiences for all pupils and a high standard of care and welfare to all animals involved. This policy sets out how this will be achieved.

Our aims in bringing animals into the school environment:

1. To help pupils develop increased respect, empathy and a sense of responsibility for living things.
2. To encourage pupils to consider the experiences and needs of other living things, including other pupils, school staff, and their families.
3. To promote an interest in the natural environment and support hands-on learning across all areas of the curriculum.
4. To help pupils develop a calm, confident, and sensitive manner when interacting with animals.
5. To demonstrate best practice in the care of pets.
6. To encourage pupils to consider careers working with animals.

School pets:

To ensure the safety and wellbeing of all pupils and animals we will take the following measures before acquiring any school pets:

- Any member of staff wishing to introduce a class animal or animals must seek permission from the headteacher and agree to take on responsibility for the care and welfare of the animal for the duration of its life. This includes the responsibility to care for the animal themselves, or find a suitable alternative home, if the classroom situation or the health/ temperament of the animal changes and it is no longer appropriate for it to live at school.
- We will ensure there is a robust plan in place for weekend and holiday care of the animal.
- We will fully research the needs, habits and temperament of the relevant species to ensure it will make an appropriate addition to the school and that we can fully meet its welfare needs in the school environment.
- We will produce a comprehensive written risk assessment for all activities associated with keeping and caring for the animal/s. This document will identify one or more named members of staff who have agreed to take on responsibility for the care of the animal. This risk assessment process will take into account the safety of any pupils with allergies or behavioural issues.

- We will confirm that a local vet will be able to treat the animal/s if needed.
- We will keep parents informed of the plans to introduce the animal/s and ensure they know how to withdraw their child from activities related to the animal if they wish.
- Should any pupil or adult be scratched or bitten by an animal at school, first aid will be administered immediately and, in the case of a pupil, parents will be informed.
- We will ensure ongoing funding is available to provide a suitable level of care.

The animal or animals will only be introduced to the school once they have been assessed as safe and appropriate for the classroom environment, and those involved are confident that their needs can be met.

Once the animal is resident in the school we will take the following measures:

- We will provide housing of a suitable size with all necessary features and enrichments. The housing will be chosen with the safety of pupils in mind and checked for any unanticipated risks.
- We will keep the housing and surrounding area clean and in good condition at all times.
- We will provide a suitable single-sex social group for the animal/s if appropriate.
- We will provide the correct quantity of suitable feed. All feed will be stored correctly.
- We will carry out preventative health care measures as appropriate.
- We will ensure that any sick or injured animals are isolated, treated, and seen by a vet if necessary.
- We will monitor the behaviour and health of the animal on an ongoing basis.
- Pupils will only handle animals under close supervision from a member of staff.
- We will implement strict hand-washing procedures for all pupils coming into contact with the animal or associated equipment.
- Any cleaning chemicals or animal medications will be stored in accordance with our COSHH policy and will be animal friendly.

Visiting animals:

Visits from domestic, exotic and farm animals can enrich learning. We will take the following measures to ensure any such visits are safe and humane:

- No animals will be brought onto the school premises without prior planning and permission from senior management staff.
- We will produce a written risk assessment for all animal visits, taking into account the safety of any pupils with allergies or behavioural issues.
- We will carefully check the credentials of any potential providers, requesting risk assessments, suitable public liability insurance, welfare policies and references as appropriate.
- We will require animal visit providers/ owners/ handlers to provide details of proposed contact between pupils and animals and assurance that all animals are vaccinated as needed.
- Any animals on site will be safely and humanely restrained or contained when not being held by their owner/ handler.
